# BRIGHTON COLLEGE BANGKOK

Brighton College Bangkok (BCB) will open in September 2016, with capacity for 1,500 boys and girls aged 2 to 18. It will share the aims and ethos of Brighton College UK, one of England's leading schools, offering its pupils the best educational traditions and innovations.

The school will offer the full Brighton College experience with the avowed aim of becoming the leading British-curriculum school in Thailand.

The iconic 20-acre campus will provide access to the latest educational technology and purpose-built state-of-the-art facilities for music, art, dance, drama, sports and co-curricular activities.

Brighton College International Schools was established in 2009 as a subsidiary of Brighton College in the UK to plan and set up British-curriculum schools around the world under licence to Brighton College. Each overseas school is privately and independently owned. The schools are managed by boards of governors, which include representatives of Brighton College in the UK.

BCB is a collaborative effort between Brighton College UK and Ocean Group, the Thai corporation led by the Assakul family.

BCB is offering opportunities for businesses to share in their success and become part of the experience through a comprehensive commercial sponsorship and partnership marketing programme.

## CURRICULUM

BCB is unique in that all pupils will learn English, Thai and Mandarin.

It will follow the British independent educational model with the school composed of three different sections: a Pre-Prep School, Preparatory School and Senior School.

### **The Pre-Prep School**

Pre-Nursery to Year 3    Ages 2-8

### **The Preparatory School**

Years 4 to 8                    Ages 8-13

### **The Senior School**

Years 9-13                    Ages 13-18

The school will offer the innovative Brighton College UK curriculum, leading to the award of IGCSEs and A-levels/IB. Its pupils will benefit from outstanding pastoral care delivered through the traditional 'House' system.

Above all, a Brighton College education will offer all of its pupils a caring, supportive and tolerant environment in which they can thrive and develop a lifelong passion for learning.

Pupil admissions begin in January 2016.

## BANGKOK CAMPUS DESIGN

The design of the BCB campus is a fundamental part of BCB's vision for learning.

First, the campus will be an inspirational learning environment, where each child is valued for his or her own sake, encouraged to develop his or her talents to the full in a community where there are no stereotypes and where every achievement, however small, is noticed.

The second main focus of the campus design is to connect children with nature. In order to integrate nature into the design, certain buildings will be carved out to craft three spaces - open spaces, semi-open spaces and breeze-way spaces. The seamless integration between interior and exterior will enable children to learn in innovative ways and make them feel part of the world around them.

The third main driver of the design is embracing tomorrow and the impact digital technology has on children's lives. The way children today are accessing information and knowledge, and sharing it with one another, inspired our vision of a new 'Learning Resource Centre' (LRC).

The LRC concept is an innovative multi-purpose learning space that will physically connect together the three schools of the College, enabling pupils and teachers to work and learn using the latest information technologies in imaginative spaces.
